☐

**Fixed Price Listing**

Fixed price listings could be used on each attached marketplace. These listings have a fixed price and could have multiple variants and quantities. These listings could be created for multiple marketplaces at the same time, Shopiago will handle the reconciliation on each selling.

☐

**Auction Style Listing**

Auction style listings could be used only on eBay. This is good if you want to get a higher price for your items than a pre-defined fix price value. Starting your item from a lower starting price and using a reserve price could be a good selling strategy. A fixed price listings can't have variants and the item could have only 1 quantity.

## Item specifics

Item specifics are required when listing to eBay and once you get it right, it can boost sales. Below are 3 categories for item specifics:

### Required

- eBay requires mandatory attributes for this category. It will help customers to find items when they perform a search.
- On the marketplace, buyers usually filter their search by using item specifics. Making it easier for them to find what they are looking for.
- If you haven't entered one of these specifics, the item will drop off the search and therefore it won't be visible to customers.

### Recommended

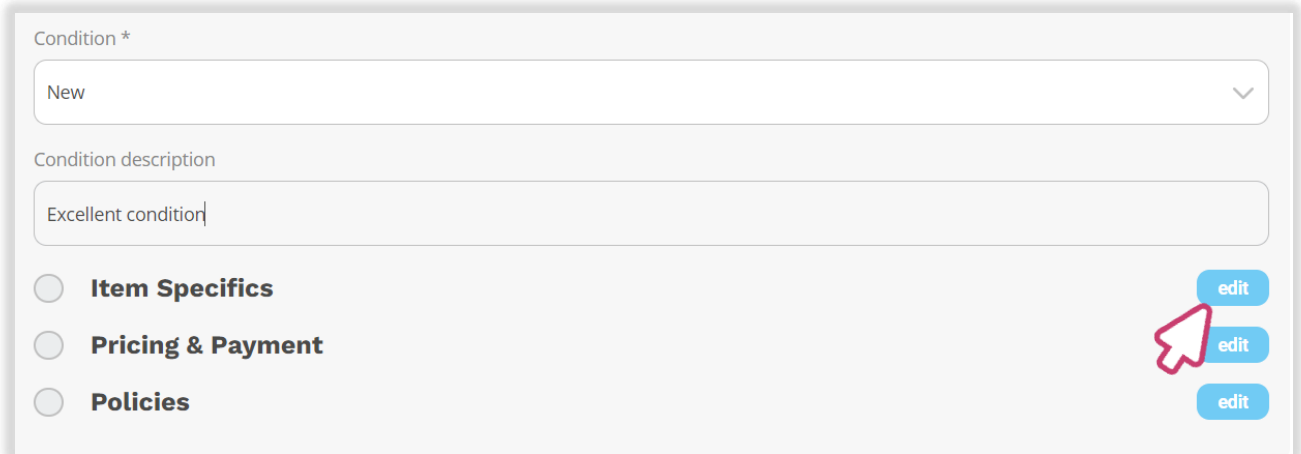

- Your listing will perform better if you fill in these recommended attributes.
- It could reach a higher search position and will show up in more search results.
- This is not mandatory but if you have these details, please enter them.

### Optional

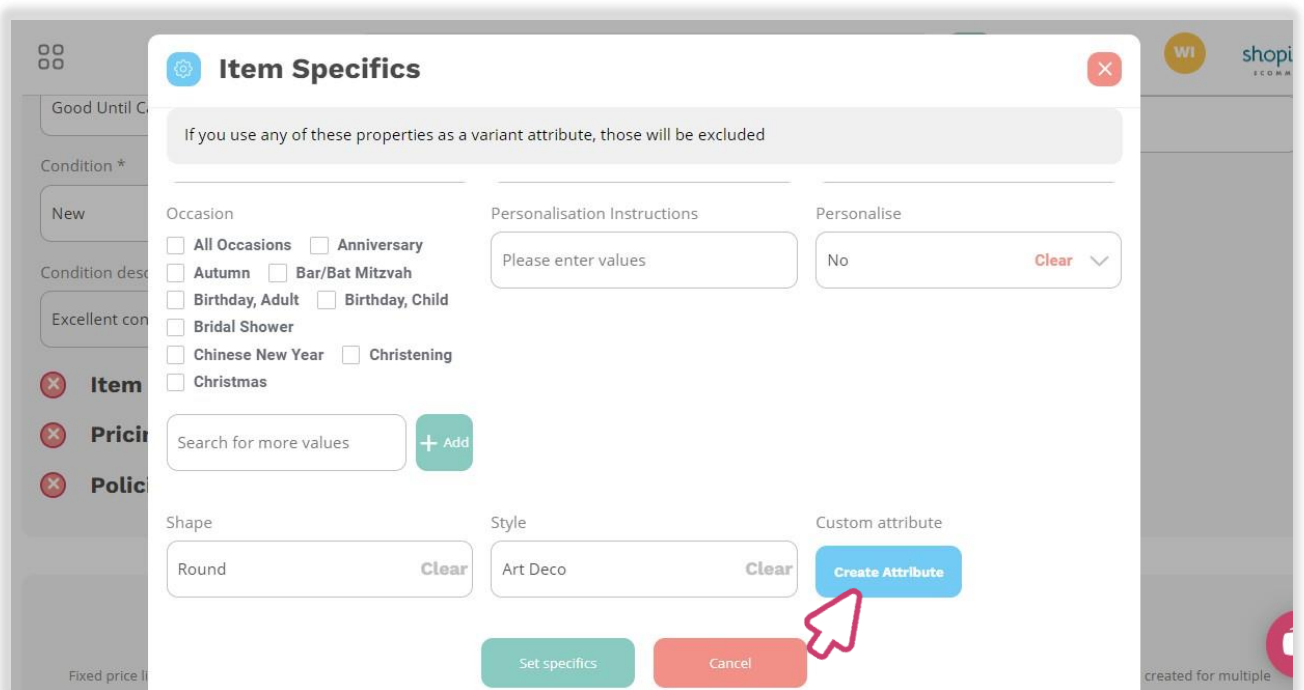

- You can add additional attributes to your listing but this is not mandatory.
- These attributes will be shown on the listing but may not be used during eBay search.
- This doesn't affect buyer's search but could improve customers experience.

## Item specifics

- To add item 'Specifics', click on the 'edit' button.

## Item specifics

## Pricing and payment

Pricing is one of the top influencing factors. You should think carefully when setting up your price. Most customers will take the item's price into consideration when deciding whether to buy your item.

Customers will bid on your item during a set period of 3 to 10 days, and the highest bidder at the close of the auction buys your item.

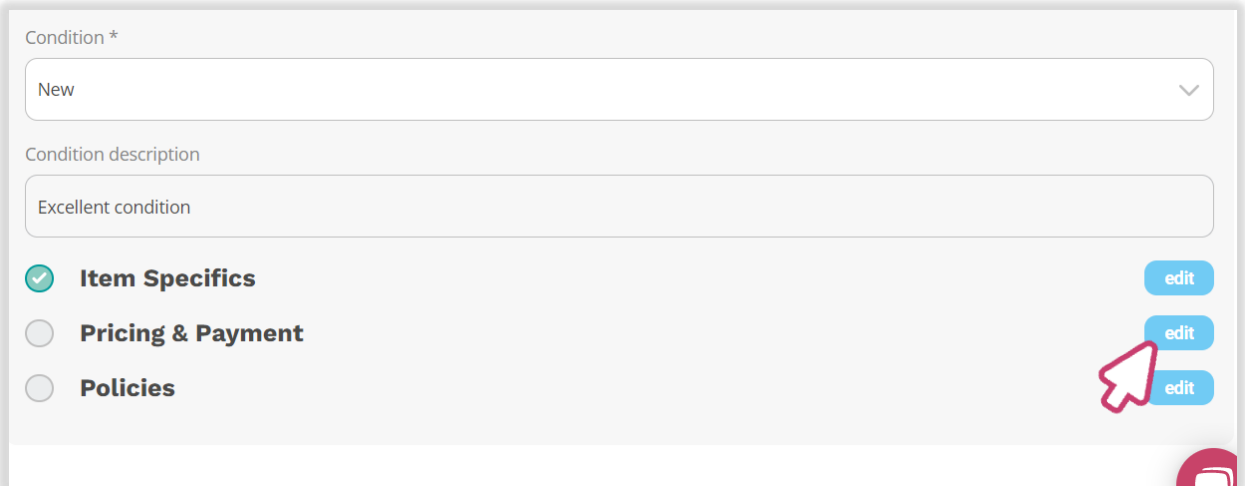

Tips:

- Avoid setting up your price based on what you want to achieve.
- Don't presume what a customer might pay for your item.
- Do your research!

- Set a 'Reserve Price' - a minimum amount that you would want the item to sell for. Leave it blank if you do not want a reserve price.
